

NOVAYA

DUNLOP

PILLOWS

Dunlop

The most popular

Our long-established Dunlop vulcanisation technology guarantees extraordinary quality for a truly exceptional sleep experience. The Dunlop process is based on the principle of a steam oven, where latex is vulcanised at a steady temperature of up to 100°C. Novaya perfected this method through years of investment in R&D and maintaining high-quality standards. We carefully select our raw materials to guarantee premium quality and comfort characteristics.

BLEND

DUNLOP CLASSIC

Our Classic blend contains a balanced mixture of synthetic latex and natural latex.

MODELS

SOAP

Soap shaped pillows offer a responsive support and are suitable for sleepers who like to sleep on their back as well as on their side or stomach. Our soap shaped collection offers a wide variety of options.

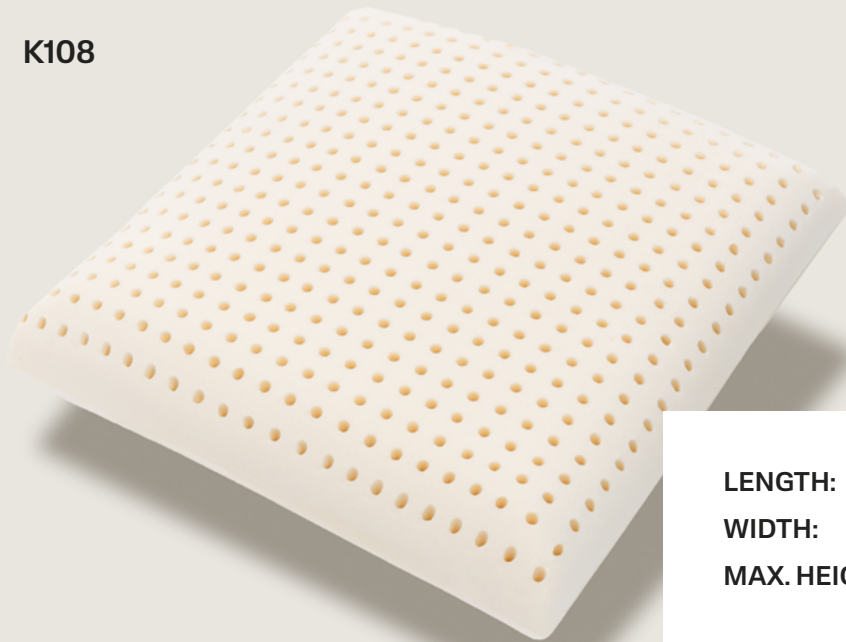

ERGO

Ergonomic pillows are especially designed to align the spine and offer neck support. An ergonomic pillow will help to reduce tension and discomfort, resulting in a better sleep quality.
